

How to Make a Pillowcase Using the Burrito Method

123

1. Cut the **main fabric** to 25.5 inches by 40 inches (non-directional fabric) or adjust for directional fabric as needed.
2. Cut the **border fabric** to 9.5 inches by 40 inches.
3. Lay the **border fabric** right side up on a flat surface.
4. Place the **main fabric** right side up on top of the border fabric, aligning the edges.
5. Roll the main fabric tightly from the bottom towards the top, stopping near the center of the border fabric.
6. Fold the bottom edge of the border fabric over the rolled main fabric, aligning it with the top edge.
7. Pin all three layers (border, rolled main fabric, and border fold) together along the aligned edge.
8. Sew a straight stitch along the pinned edge using a 0.25-inch seam allowance.
9. Pull the rolled main fabric out through the open side of the border fabric to turn it right side out.
10. Press the border seam flat with an iron.
11. Fold the pillowcase in half lengthwise, with the right sides facing each other, and align the edges.
12. Sew along the side and bottom edges using a 0.25-inch seam allowance.
13. Finish the raw edges with a zig-zag stitch or serger for durability.
14. Turn the pillowcase right side out, press it, and it's ready to use.

Change for side seam:

From line 11- instead of folding pillow case with right sides together; put wrong sides together and sew 1/4" seam.

Then turn inside out, press and sew another seam which will encase the above seam.

Turn inside out again and it will be done
